Leo's rc simulator apkpure

With over 3.7 million downloads, Leos RC Simulator is a truly addictive flight simulator for airplane enthusiasts, true fanatics. If you are looking for an accurate flying experience without the risk of crashing your real RC plane, this RC flight simulator is for you. You get 20 planes when you install Leo's RC Simulator, and the rest can be downloaded for free from the Extra's option in the main menu. In other RC Simulators you get a plane and a landscape, and you will have to pay if you want to fly with another plane or in another field. With Leo's RC Simulator you can choose between more than 60 different planes and helicopters, and 5 landscapes, and of course all with very realistic features. You will become addicted to the experience of flying in the various realistic 3D scenarios with a 360 degree vision of the world around you. Features: A full featured radio control models simulator. Photorealistic landscapes Soaring, glider trainer, glider aerobatic and helicopter. Manage all RC simulator controls through a very simple and intuitive interface Kies between different aircraft, helicopters and scenarios S Limit the aerodynamic parameters of your aircraft (ailerons, lift, rudder, inerce, power, lift, weight and size) Get additional internet content (new planes, helicopters, scenarios, etc.). Please note that the user experience can vary considerably depending on the hardware.
